EZQuest®

Premium Digital Life Accessories

Quick Instruction Manual for
USB-C CFast 2.0 Card Reader 5
Ports with UHS II SD/Micro SD
Part# X40021

How to Connect to Computer:

Connect the USB-C connector to your computer USB-C port and the rest of the cards that you need on your hub side.

Card Insertion:

: The Card needs to be facing up.

▲ : The Card needs to be facing down.

Plug and Play with Fast Data Transfer Speeds

There is no need to install any drivers; just plug the adapter into your computer and you are ready to go. Transfer images, videos, music and data from your digital camera or other devices

Pro Grade CFast 2.0, UHS II SD and UHS II Micro SD Reader

The EZQuest 5-in-1 CFast 2.0 Reader is designed for photographers, videographers or anyone who requires the fastest speeds available for CFast 2.0, SD and Micro SD cards including class UHS-II.

Simultaneous read and write over USB-C will allow you to move files at speeds up to 525MB/s on CFast 2.0 and up to 250MB/s on UHS-II.

Read and write data, images, and video directly from our 5-in-1 card reader to your USB-C computer. Card reader is compatible with any USB-C or Thunderbolt 3™ ready computers and comes with LED indicators for each port which light up when in use

How to connect to USB-C smart phone or tablet

Note: Please make sure that your device has the same type of USB-C connectors. The best way is to compare your charging cable connector that comes with your device to make sure it is a USB-C connector.

Please follow steps below:

A. Power down your smart phone/tablet.

B. Connect any of your cards to the X40021.

C. Connect the USB-C connector to your smart phone or tablet.

D. Restart your smart device

The cable is long enough so the adapter can lay flat on your desk.

Please email us with any questions or feedback you might have about our products to support@ezq.com.
