

Ultra HD High Speed HDMI® 10K 60Hz Cable

2.2 Meter (7.2 feet) Cable With Nylon Braided and Brushed Anodized Aluminum Connector Housings

- Nylon braided outer sheath, strain relief and strong aluminum connector housings
- Resolution range of 4,5,8 and 10K
- Refresh Rates 60Hz to 120Hz
- Ultra High Speed HDMI Cable with up to 48Gbps Bandwidth
- Includes HDMI Ethernet Channel
- Supports Multiple Static and Dynamic HDR Solutions
- Supports the full range of uncompressed HDMI 2.1
- Enhanced Audio Return Channel (eARC)
- Enhanced Refresh Rate (ERR)
- Variable Refresh Rate (VRR)
- Quick Media Switching (QMS)
- Quick Frame Transport (QFT)
- Auto Low Latency Mode (ALLM)
- HDCP 2.2 Support
- Backward compatible with existing HDMI devices

The latest EZQuest Ultra HD High Speed HDMI 10K 60Hz cable is based on HDMI® Specification 2.1 which supports a range of higher video resolutions and refresh rates including 8K 60Hz and 4K 120Hz, and resolutions up to 10K. Dynamic HDR formats are also supported, and bandwidth capability is increased up to 48Gbps. Our cable features exceptionally low EMI (electro-magnetic interference) which reduces interference with nearby wireless devices.

HIGHER RESOLUTIONS AND REFRESH RATES

In addition to 4K and 8K, a range of resolutions are supported including 5K and 10K

RESOLUTION MEGAPIXELS AND REFRESH RATES

Multiple resolution support includes 5K and 10K resolutions for pc displays, digital signage, surveillance and various commercial and industrial AV solutions

4K48/50/60	4K100/120	8 MPixles
5K48/50/60	5K100/120	11 MPixles
8K48/50/60	8K100/120*	33 MPixles
10K48/50/60*	10K100/120*	44 MPixles

*REQUIRE DISPLAY STREAM COMPRESION(DSC)

EZQuest®

Ultra HD High Speed HDMI® 10K 60Hz Cable

2.2 Meter (7.2 feet) Cable With Nylon Braided and Brushed Anodized Aluminum Connector Housings

Faster Refresh Rate

Faster refresh rate enables the 8K 60Hz smooth and sharp viewing of content with high-speed action and 4K 120Hz enables ultra fast-motion UHD images to be crisp and razor sharp in particular, sports, action movies, high-performance gaming and VR benefit significantly.

Dynamic HDR

Dynamic HDR ensures that every moment of a video is displayed at its ideal values for depth, detail, brightness, contrast and wider color gamuts on a scene-by-scene or even a frame-by-frame basis.

Static HDR

This feature uses a single image descriptor in metadata that is applied to every scene and every frame of the whole movie.

Enhanced Audio Return Channel

EARC is an HDMI 2.1 feature which ensures full compatibility between audio devices and upcoming HDMI 2.1 products. eARC simplifies connectivity, provides greater ease of use, and supports the most advanced audio formats and highest audio quality.

Enhanced Refresh Rate

(ERR) ensures an added level of smooth and seamless motion and transitions for gaming, movies, and video.

Variable Refresh Rate

(VRR) is a gaming feature which produces a more fluid and better detailed gameplay experience and syncs up source and display with continually changing refresh rate, up to a frame-by-frame basis.

Quick Media Switching

(QMS) is a source device that can instantly switch the resolution or frame rate of its content without any display blackout, such as when switching between 60fps and 24fps video

Quick Frame Transport (QFT):

Each video frame travels faster from the source even though the source does not increase its frame rate and results in decreasing latency. This reduces lag for gaming, real-time interactive virtual reality, and enables more responsive karaoke.

Auto Low Latency Mode

(ALLM) allows the ideal latency setting to automatically be established for various entertainment applications, allowing for uninterrupted viewing and interactivity and also enables latency mode auto-switching from applications such as movies and video to low latency applications such as gaming and real-time interactive virtual reality.

Our cable is backwards compatible and can be used with the existing installed base of HDMI devices and is perfect for your home or office use.

Specification:

- Part Number: X49930
- UPC Code: 694307499300
- Interface: HDMI to HDMI
- Resolution: 1920X1080 -3840X2160 4K- 5120X2160 5K- 7680X4320 8K- 10240X4320 10K
- Refresh Rates: up to 120Hz
- Color: Space Gray Brushed Aluminum Housing with Black Nylon Braided Cable
- One (1) year warranty

Compatibility:

- Any device with HDMI port
